Education

Maulana Azad National Urdu University **B.Tech in Computer Science**

(2020 – 2024)

Hyderabad

Summary

MERN Stack Developer with experience in React, Node.js, Express, MongoDB, and building scalable web apps. Skilled in UI design, Restful API, and database management. Experience in the development of e Commerce platforms. Strong in ReactJs, JavaScript, and databases.

Projects

EduBot (Academic Project)

[Link](#)

- Engaged in regular consultations with Assistant Professor Geeta Pattun to refine project goals and deliverables; established a structured timeline that facilitated the submission of two research papers to reputable journals.
- Engineered Edubot with a ReactJS front-end and a Python backend.
- Leveraged Keras for advanced machine learning functionalities.
- Integrated Pandas for robust data manipulation. Employed MongoDB for efficient database management.
- Tools Used: HTML, CSS, Python and Frameworks

e-commerce (Self Project)

[Link](#)

- Developed a full-stack ecommerce web application using React for frontend and Node.js with Express for backend, integrated with MongoDB.
- Implemented core functionalities including product listing, cart management, user authentication, and order placement with Cash on Delivery.
- Designed an admin dashboard for viewing orders, updating delivery status, and managing customer order data securely.
- Tools Used: ReactJs, Node.js, ExpressJs, MongoDB, Tailwind CSS

Simon Game (Self Project)

[Link](#)

- Enhanced user engagement: Created a user-friendly interface with smooth animations and responsive controls to improve the gaming experience.
- Cross-platform compatibility: Optimized the game for seamless performance across various devices, including desktops, tablets, and smartphones.
- Robust implementation: Engineered a maintainable codebase using JavaScript, ensuring efficient event handling and precise game state management.
- Tools Used: HTML, CSS, JavaScript

Technologies

Languages: Java, SQL, JavaScript, HTML, CSS,

UI/UX design: Figma, Canva

Frameworks/libraries: ReactJs, Node.js, expressJs, Tailwind, BootStrap,

Databas: MongoDB, mySQL

CI/CD tools: git, gitHub

Deployment tools: Netlify, Render, Vercel

Training AccioJob (Ongoing)

- Learning full-stack development with MongoDB, Express.js, React, and Node.js
- Building real-world projects and mastering API integration

Certificate

- Java Programming (Great learning)
- ReactJS (Great learning)
