Education

2020 – 2024 **B.Tech in Computer Science (Maulana Azad National Urdu University)**
Hyderabad, India

Summary

MERN Stack Developer with experience in React, Node.js, Express, MongoDB, and building scalable web apps. Skilled in UI design, RESTful APIs, and database management. Experienced in developing eCommerce platforms. Strong in ReactJs, JavaScript, and databases.

Projects

EduBot (Academic Project)
- Engaged in regular consultations with Assistant Professor Geeta Pattun to refine project goals and deliverables; established a structured timeline that facilitated the submission of two research papers to reputable journals.
- Engineered Edubot with a ReactJS frontend and a Python backend.
- Leveraged Keras for advanced machine learning functionalities.
- Integrated Pandas for robust data manipulation.
- Employed MongoDB for efficient database management.
- Developed AI-driven features for personalized learning experiences.

Ecommerce (EliteMart) (Self Project)

- Developed a full-stack ecommerce web application using React for frontend and Node.js with Express for backend, integrated with MongoDB.
- Implemented core functionalities including product listing, cart management, user authentication, and order placement with Cash on Delivery.
- Designed an admin dashboard for viewing orders, updating delivery status, and managing customer order data securely.

Simon Game (Self Project)
- Enhanced user engagement: Created a user-friendly interface with smooth animations and responsive controls to improve the gaming experience.
- Robust implementation: Engineered a maintainable codebase using JavaScript, ensuring efficient event handling and precise game state management.
- Cross-platform compatibility: Optimized the game for seamless performance across various devices, including desktops, tablets, and smartphones.
- User feedback integration: Collected and analyzed user feedback to make iterative improvements, enhancing overall gameplay and user satisfaction.

Skills

Programming Languages:	UI Design:	Web Technology
JavaScript, Java	Figma, Canva	HTML, CSS, JavaScript
Frameworks:	**Database:**	**Backend:**
ReactJS, Bootstrap, Tailwind	MySQL, MongoDB	Node.js, expressJs
CI/CD		
Git, gitHub		

Training AccioJob(Ongoing)
- Learning full-stack development with MongoDB, Express.js, React, and Node.js
- Building real-world projects and mastering API integration

Certificate
- Java Programming (Great learning)
- ReactJS (Great learning)
